

GUEST INFORMATION:

We understand that the health and safety of our staff and our guests are the utmost importance whilst co-existing with COVID-19. We have been monitoring the new government rules and have come up with the following changes to adhere to the new normal way of operating:

- We will complete a check on all our staff coming in to their shifts every day and if anyone displays any sort of symptoms will be excluded from the workplace.
- There are several areas in the restaurant for guests to use hand sanitizer while dining.
- We are also kindly asking guests not to visit us if they are experiencing any COVID-19 related symptoms.
- Strict cleaning procedures have been implemented, especially in areas where hand-contact is frequently used. Guest bathrooms will be sanitised routinely and hand sanitisers are available for all our guests in bathrooms.
- We will be operating with limited staff so that there is less contact and we are also changing their shift pattern so they are maintaining physical distancing rules. They will also be adhering to the government rules in relation to the level of necessary PPE.
- All employees have been trained to regularly wash their hands after taking orders and collecting menus. We have made alcohol sanitizer gel available in all front and back of house locations.
- Where possible, we have changed our layout of the restaurant in line with government rules. We are operating a 1-metre + approach where we cannot alter layouts to provide 2 metre distancing.
- Food and drink menus will be sanitised before giving to customers, alternatively they can also access the menu from our website if they wish to do so.

OPERATION INFORMATION:

Monday to Thursday : 5pm – 10pm | Friday to Sunday : 12pm – 10pm

Takeaway will also be available at the same time as dining. Timing is likely to change as we will assess the situation as time goes by.

While we will be taking bookings, we will also allocate certain parts of the restaurants for walk-in customers.
